PROFESSIONAL SUMMARY

IT operations and service-delivery leader with 16+ years in mission-critical environments, leading teams of 15-32 across global locations. Owns ITSM operations (ServiceNow, incident/problem/change, SLA/MTTR), endpoint and identity management (Intune, Entra ID, RBAC), and SaaS lifecycle governance. Combines people leadership, budget/resource management, and continuous improvement with hands-on automation (PowerShell, AI-assisted operations). Known for building accountable, high-performance teams and turning operational data into executive decisions.

CAREER SNAPSHOT

16+ Years in IT / Cloud / Reliability Engineering
100% SLA Across 20+ Mission-Critical Services
30-35% Incidents Auto-Resolved via AI Automation
25,000+ Stale Incidents Eliminated
85% → 98% Operational Efficiency Lift
15-32 Engineers Led Across Global Teams

KEY ACHIEVEMENTS

- Led IT operations for a 24/7/365 mission-critical platform; raised execution quality across a 15-32 engineer org.
- Architected AI-driven incident automation reaching 30-35% auto-resolution; eliminated 25,000+ stale incidents.
- Improved operational efficiency from 85% to 98% and reduced resolution time 32% via process redesign.
- Sustained 100% SLA across 20+ mission-critical services with ITIL-aligned incident/problem/change.
- Managed budgets, resources, and vendor relationships across distributed global teams.

TECHNICAL COMPETENCIES

IT Operations Leadership: Team Leadership (15-32), Budget & Resource Mgmt, Service Delivery, Vendor Management, Workload & Queue Health

ITSM & Service Mgmt: ServiceNow, Incident / Problem / Change, SLA & MTTR Management, ITIL-aligned Processes, IT Helpdesk Operations

Endpoint & Identity: Microsoft Intune (MDM), Entra ID / SSO / MFA, RBAC & Access Controls, Device Lifecycle, M365 Administration

Cloud & Automation: Microsoft Azure, PowerShell, AI-Assisted Operations, Infrastructure as Code (Terraform)

Metrics & Quality: CSAT, KPI Tracking, Root-Cause Analysis, Continuous Improvement

Security & Compliance: Access Reviews & Audits, Operational Controls, Compliance-aligned Ops

TECHNICAL PROFICIENCY

IT Operations Leadership & Service Delivery — **Expert**

ITSM (ServiceNow, incident/problem/change) — **Expert**

Endpoint Management (Microsoft Intune) — **Advanced**

Identity & Access (Entra ID, SSO/MFA, RBAC) — **Advanced**

Budget & Resource Management — **Advanced**

AI-Assisted Operations & Automation — **Advanced**

KPI, Root-Cause & Continuous Improvement — **Expert**

Cross-functional Stakeholder Management — **Expert**

PROFESSIONAL EXPERIENCE

IT Operations Manager — Xbox Services

Microsoft Corporation (via TechMahindra) | Redmond, WA | May 2021 - Present

Leads IT operations, tooling, and service delivery for a 24/7/365 mission-critical platform serving millions.

- Lead and develop a team of engineers; manage workload, priorities, budget input, and service quality across operations.
- Own ITSM operations — ticketing, SLAs, escalations, incident/problem/change management, and continuous service improvement.
- Drive endpoint, identity, and SaaS lifecycle governance; manage access controls and audit readiness aligned to compliance.
- Architected AI-driven incident automation reaching 30-35% auto-resolution; eliminated 25,000+ stale incidents and 500+ alerts.
- Improved operational efficiency from 85% to 98% and reduced resolution time 32% through process redesign and automation.
- Partner cross-functionally with Engineering, Security, and business teams on technology rollouts and operational risk.

IT Operations & Platform Technical Lead — Customer Support Services

Microsoft Corporation (via Mindtree) | Redmond, WA | Nov 2016 - May 2021

Led a 15-engineer team across IT operations and platform service delivery.

- Hired, coached, and grew a 15-engineer team; set service standards and managed workload distribution.
- Owned escalations, SLA adherence, and KPI tracking; drove systemic fixes via root-cause analysis.
- Managed access controls and RBAC; partnered with Security on audit readiness.
- Optimized tooling and resource spend without degrading service quality.

Operations Lead — Live Site Operations

Microsoft Corporation (via Mindtree) | Hyderabad, India | May 2012 - Nov 2016

Led 12 senior + 20 engineers operating mission-critical services at 99.95%+ SLA.

- Standardized ITSM ticketing, escalation, and documentation workflows across distributed teams.

- Built PowerShell automation saving thousands of manual hours; deployed monitoring and alerting.
- Ran incident, problem, and change management; mentored engineers from specialists to leads.

Systems Analyst / IT Engineer

IBM (via Infosoft Inc) | Hammond, IN | Sep 2009 - Nov 2011

Enterprise IT operations, endpoint, and infrastructure support.

- Endpoint, server, and infrastructure support; executed migrations, patching, and provisioning.
- Documented runbooks and resolved recurring issues through process improvements.

SELECTED PROJECTS & CASE STUDIES

ITSM Service Delivery Program — Owned ticketing, SLA, and incident/problem/change workflows in ServiceNow, lifting efficiency 85%!98%.

Endpoint & Identity Governance — Drove Intune endpoint management and Entra ID access controls (SSO/MFA/RBAC) with audit readiness.

AI-Driven Incident Automation — Shipped an AI incident agent (30-35% auto-resolution) integrating telemetry and remediation.

Operational Excellence — Drove queue health, backlog, and reopen-trend reviews eliminating 25,000+ stale incidents.

LEADERSHIP & COLLABORATION

- Led and mentored global teams of 15-32 engineers across the US and India, growing individual contributors into technical leads.
- Central escalation authority and SME for high-severity incidents, coordinating Security, Engineering, Product, and business teams under pressure.
- Ran 1:1s, performance reviews, onboarding, and targeted coaching/enablement plans; built psychologically safe, high-accountability culture.
- Synthesized incident and reliability data into executive reviews driving investment and process decisions.
- Early operationalizer of AI/automation in production support and operations; champion of continuous learning.

CERTIFICATIONS

- Microsoft Certified IT Professional — Azure Infrastructure Solutions (70-533, 70-534)
- Microsoft AZ-900 — Azure Fundamentals
- Google Cloud Computing Foundations
- Google — Introduction to Generative AI
- TechMahindra AI White Belt

EDUCATION

- Bachelor of Engineering in Computer Science Engineering, JNTU, Hyderabad (2008)

PROFESSIONAL PHILOSOPHY

IT operations leadership is about people and process as much as technology. I build accountable, high-performance teams, automate toil, hold the line on SLAs, and turn operational data into decisions that improve both employee experience and the bottom line.
